

TIMILEYIN OLAMIDE ADEOYE

FRONTEND ENGINEER

+234 903 624 4262 • timileyinadeoye20@gmail.com • Osogbo, Nigeria

PROFESSIONAL SUMMARY

Highly motivated Frontend Engineer with a technical background in Finance and an elite certification in Project Management (PMP). Expertly trained in the React ecosystem, I build performant, responsive, and user-centric web applications. Combining analytical precision with modern development practices, I deliver clean code and scalable digital solutions across diverse sectors including E-commerce, Hospitality, and Renewable Energy.

TECHNICAL PROJECTS

Solar Energy Solutions Site

Built a professional corporate platform for a renewable energy provider, featuring responsive service layouts, lead generation modules, and data-driven content presentation.

Restaurant & Hospitality Web App

Developed an interactive restaurant platform with dynamic menu displays, reservation integration, and a mobile-optimized user interface.

E-commerce React Storefront

Architected a comprehensive shopping experience using React state management, featuring dynamic product filtering and a seamless checkout UI.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern

2026

Dataslid Softwares, Osogbo

- Collaborated with design and engineering teams to build high-quality UI components using React.js and Tailwind CSS.
- Implemented responsive designs ensuring 100% compatibility across mobile and desktop browsers.
- Participated in Agile development cycles and code optimization tasks.
